Dear Parents and Carers,

In science, Kindergarten are learning all about living things. What living things need and how living things meet our needs. To enhance their learning we have organised a special chicken hatching program at school.

**When:** Monday 28th February - Friday 11th March

**Where:** Figtree Public School

**Cost:** \$10 per student

Payment can be made via our POP payment system, found on the school website (Make A Payment) or please place \$10 cash in an envelope clearly marked with your child's name and class.

The Hatching Chicks program provides a hands-on opportunity to learn about the life cycle of chickens from a fertilised egg to a hatchling. The program also provides information about the stages of growth that a chick goes through to become an adult bird, as well as how to manage and care for a healthy and happy chicken.

Yours sincerely,

Miss Gill and Ms Hornsby

Classroom Teachers

Melissa Harding

Principal
